## Foreword

Life, in its various forms, is most interesting as it relates to people. For many years archaeologists have spent much time and money in making excavations and in research work to find when and how people of the past have lived. In more recent years books have been written about those who have played colorful parts in the actions of life and histories have given those who have by diligent work of brain or brawn a right to importance. But what of the vast majority of people who have been the home builders and community stabilizers which are the essence of loyalty to country and nation, who all too frequently leave only legendary inheritance to their descendants? It is for these, who otherwise would lose their identity, that this work has been done.

Creating an interest in local history has been going on in our country ever since the first patriotic organization was formed; and since authentic references are required for membership, the D.A.R. have been keenly interested in furthering the compiling of Vital Records. Abigail Adams and Mercy Otis Chapman of Des Moines have made this beginning in Polk County by compiling the records of tombstones in the cemeteries.

A number of histories have been written of Polk County and from these the following names, of the very first settlers have been taken, believing they will be of value to the research worker.

The government sent a small Company of Infantry and Cavalry Troops up the Des Moines River on the steamer Ione, which landed at the junction of the Des Moines and Raccoon rivers, on May, 9, 1843. These men were soon followed by some of the more venturesome spirits of the East.

These are names gathered from histories of the County up to 1695. We know there were many more heads of families at that time which can be traced in many cases only by cemetery records.

If these records are helpful to those trying to trace their lineage, the work will have been well spent.

The following abbreviations have been used, a. age: b. birth, brother: c. child, d. died, daughter: f. father: h. husband: m. married; p. probably: s. son, sister: w. wife.

- No. 1. One is shown on the map as being one mile south of the south west corner of the City limits of Jolok City. We were unable to find out anything about this one.
- No. 2. Section 29, Bloomfield Township shows two cemeteries, both of them extinct. I doubt if more than one existed as this property was originally owned by the grandfather of Mr. Frank Geil, who still owns part of the land. Mr. Geil remembered his Grandfather saying that he gave some land for a cemetery but it was abandoned more than sixty years ago and the bodies removed. He thought it was a Catholic Cemetery. In conversation with Mr. John E. McDermott he thought this one answered the description of a Catholic Cemetery from which the bodies were removed to St. Ambrose and buried in the north west corner which are without stones and about whom no one knows. He told a story in connection with what he felt sure was this cemetery. "You have recalled to my mind an instance of which I have not thought in over thirty years. One of our pioneer undertakers was known as a very stubborn man, who when he made up his mind would not change it. He was to have a funeral service at what I am sure was the cemetery you were speaking of. It was in the early spring when it was raining and the roads were very muddy. As I remember it this cemetery was on quite a hill with a steep road leading to it one way. In those days the hearse was a spring wagon drawn by a horse, so when they reached the hill the procession went the long way around to avoid the steep road; but the undertaker insisted upon going up the hill and when he arrived at the top he found he did not have the coffin as it had slid out of the back of the wagon and he had to go back for it."
- No. 3. There was a small plot on the farm of Mr. George Justice, one mile south and one mile west of Enterprise which has the bodies of a few foreigners and negroes, who worked in the mines when they were running; but there are no stones or records to mark the graves. It has been abandoned for several years, and no effort has been made to keep it up.
- No. 4. There is doubt about a plot which was supposed to be on the E. R. Clapp farm, later the Flynn and now the State farm. Two people remembered having heard of it. Mr. Charles Anderson whose father owned the adjoining farm remembers passing some stones there as he went to school when a boy; but could not say what was on them. The descendants of Mr. Clapp could not remember of ever hearing about it.
- No. 5. When making inquiries at Farrar we were told of an abandoned cemetery up north of there by a man who said he would find out the exact location; but later when we went back no one knew anything about it and they refused to talk about it at all. We found in some places people who refused to talk of things we were sure they knew. Our conclusions were, as at that time there was much discussion of the Drake estate fraud, that they thought

to be trusted. In talking later with Miss Mattie Knowlton of Farrar, she thought it most likely they referred to a cemetery just over the line in Jasper Co.

- No. 6, Miss Knowlton gave us information about a cemetery that was plotted by her grandfather on his farm about forty years ago when her brother James died. It was about two miles south of Farrar and at what was then a village of Oldham, which was on the stage coach route. Jacob Link and his wife were buried there, but when it was abandoned all the bodies were removed to the Farrar cemetery.
- No. 7, We heard of a cemetery on the J. A. Maloney farm, four and one half miles north of Bondurant. Upon inquiry it proved to be an Indian Mound cemetery. The land had been in the Maloney family many years and they never knew of a white person being buried there.
- No. 8, On the west side of the road three miles straight north of Rumnells there was a cemetery which was abandoned and the bodies removed to the Vandalia cemetery, in Jasper Co.
- No. 9, There was a cemetery in connection with the County Home which has not been used for several years. The American Legion has been making an effort to put a marker there which it is to be hoped, they will accomplish.
- No. 10, Located near the Hannawalt School was a small plot of ground on the farm of Franklin Jesse which he gave for a cemetery when his son died about forty years ago. He later moved to Washington State and this was soon abandoned. This was written up by the Register and Tribune so it is not necessary to say more. A Mr. & Mrs. Cottrell and several children were the only burials.
- No. 11, On what is now the Athletic Field of East High School, there was quite a good sized cemetery from which, when the land was taken over by the City, the bodies were removed to other cemeteries.
- No. 12, Another that we were not able to verify was supposed to be about 27th and School Sts, which was on a hillside of a ravine which ran through that part of town.

In doing this work an effort was made for accuracy and completeness in the registrations, but when a number of people are working together there is a chance of missing a stone and there was no way of checking up on this. The sincerity of purpose and the effort expended, we hope will make this work valuable to future generations.

## The Cemeteries

During the years of 1931-32-33 we recorded all of the cemeteries of Polk Co. outside of Des Moines, also Woodland, St. Ambrose and Oak Grove within the City limits. Laurel Hill and Glendale with the two new Memorial cemeteries have complete registration, so it left only the small Jewish cemetery on Easton Boulevard unregistered. We hope this will be added at some future date.

With an old County map, we started out with all eyes searching the highways and byways for either known or unknown cemeteries. Often white slabs in the distance would prove upon close inspection to be painted fence posts, but this only increased our curiosity. Then sometimes disappointment came when we expected to find a cemetery and only bare fields were in sight, so there was an ever interesting anticipation of what was to be found as we toured around.

When at the close of the day we returned with our records, it was interesting to compare them with the names of the owners that were found in an old County Farm Atlas and the History of Polk Co. This gave us a feeling of intimate acquaintance with those long gone that will never be erased from our memory.

On the whole the cemeteries are well kept, either by individuals or associations. The early stones were of the native sand stone, marble or mica flecked granite, of which few remain and the inscriptions on those are mostly illegible. Often there is doubt as to names or dates and in such cases we used the question mark to note this.

There are a few cemeteries outside of the County which should be included to make this work complete, such as Vandalia in Jasper Co. and some in the northern tier of townships in Warren Co. which were originally in Polk Co. Then on the northern and western boundaries many people of Polk Co. were buried across the border.

There is doubt as to the exact location of the first cemetery in the County. It is the opinion of the writer, after reading the histories and seeing the first book with the plat and articles of incorporation which gives the date as 1848, also the fact that Lieut. Grier's little daughter is buried there, that Woodland was the first established. The first on record at the Court House was the Odd Fellows, Mar. 30, 1858, Book A. Page 80, it is now included in Woodland, being just south of Center and west of Twenty-first Sts. Rising sun cemetery was the second recorded, being filed Feb. 7, 1865. There may have been family plots maintained at an earlier date but we cannot verify them.

We found two cemeteries that were not on the map. One was the Byers which is located two and one half miles east and one half mile south of Elkhart. The other generally known as the Wicker is about one and one half miles east of Adelphia on the highway to Runnells.

It is doubtful if we heard of all the extinct cemeteries even though we made inquiries. The following lists those of which we heard:

## Woodland Cemetery

This cemetery is located in the heart of the city of Des Moines. It is located on the north by Center St., on the east by twentieth St., on the south by Woodland Ave. and on the west by twenty-fourth St.

It was laid out by four men in 1848, who gave an acre apiece of ground. Five years later it was taken over by the city and 4 1/2 acres added. The oldest part is on the north side along Center St.; where many of the early settlers lie.

With the exception of the older stones, of which many are broken and will soon be gone, this is the most beautiful cemetery, as it has good care.

Mr. Quinn, custodian, is preparing an exceptionally fine platt, which when completed will have the name of person buried, names of parents, and location.

It was our purpose to have a photostat picture of the original platt and the corporation deed, but the book has been misplaced and cannot be located.

This cemetery was copied by the entire committee with the assistance of Mrs. G. A. Himes, Mrs. Roy A. Johnston, Mrs. W. A. Topp, Mrs. H. J. Grever, Mrs. Edgar Youngerman, Miss Sarah Sheddon and Mrs. T. S. Holly and Ruth Weston.

### Jordan Cemetery

There were a number of inscriptions which were not in English in Jordan and Woodland Cemeteries. In so far as possible these were translated but there were four cards which could not be made out but which are on file. Those translated are as follows:

		Births	Deaths
Cmilanich,	Gaba (?)	1867:	July, 29, 1926
Kria Jnovich,	Mihalvo,	Nov. 20, 1917:	Nov. 24, 1917

Vujmovech,	Dmetar, (hus. Mika: d. Valley Junction, Ia.	1886-1925	

A few given names and dates were copied at the different cemeteries, which are given here in hopes they may be helpful altho very incomplete.

## -Woodland Cemetery-

Woodland had many foreign inscriptions which with assistance from several different persons were translated. The following for some reason was always in doubt, so it is given in the original and as much as possible translated.
